Case Study: Netflix Tag Prediction

M.Tech. Data Science, Second Year, NMIMS

By,

Bilal Hungund, Data Scientist, Halliburton

Tags Prediction

→ It helps to find out information such as genre, plot Structure, meta data and experiences

→ It is a rigorous analysis of the segmentation quality with respect to number of tags

→ Through RNN tags can be easily predicted

Netflix Tags Prediction

Movie Description
↓
Text preprocessing
↓
Tokenization
Pad Sequencing
↓
Embeddings ⟶ LSTM model

Tags
↓
Unique Tags
One-hot encoding
(Multilabel Binarizer)
